

## PROTECTING INTELLECTUAL PROPERTY FOR FREE

Dear Colleague / Dear Friend,

How many times you had an idea but had no clue how to protect it, or money or time to work on its realization? Ideas, solutions, art vanished forever.

Recently, was developed a platform where you can communicate, expose and realize your creativity for free.

**Save Ideas** offers a service for anyone - students, artists, designers, small businesses and the discerning innovators who have created something or have an idea but don't have the time or money to copyright their work, nor hunt for interested investors and customers. Simply by uploading their intellectual works to the Save Ideas site, submitters will automatically receive a Time Certificate™, which will state the exact date and time of submission, which in turn can be used to prove their ownership and protect their Intellectual Property.

The aim is to create an online community where anyone is encouraged to Exchange ideas, dialogue, interest and communication; Save/Protect submitted intellectual works; has the chance for works to get Exposed on a global platform, and finally Connect the creators to interested customers, promoters and investors to help realize their potential.

Want to take part? Then... Sign up for a free account at <https://save-ideas.com> Upload your ideas, solutions, art or any other intellectual property.

Service:

- 100% free social platform
- Legal support
- Liaison with investors
- Business Development

It would be a great pleasure to meet you on <https://save-ideas.com>

Please share this information.

Best regards,  
Save Ideas Team
